

Pre-PG ENTRANCE TEST - 2019

GENERAL INSTRUCTIONS

For Admission to

M.Sc. Agriculture

M.Sc. Horticulture

M.Sc. Forestry

M.Sc. Home Science/Community Science

Master of Fisheries Science (M.F.Sc.)

Conducted by

AGRICULTURE UNIVERSITY, KOTA
Baran Road, Borkhera, Kota (Raj.) - 324001

1. ONLINE SUBMISSION OF APPLICATION FORM

- Only online application form will be accepted.
- The online application form can be filled as per the schedule.
- There will be three papers one for M.Sc. Ag., M.Sc. Hort. and M.Sc. Forestry, second for M.Sc. (Home Science) and third for M.F.Sc. you have to select the one out of three.
- Recent passport size photograph clearly showing date of photograph (preferably not more than six months old) along with signature as single image (7H x 4W cm with 80 pixels per inch, 30 to 50 KB) should be in the jpg/jpeg/ png/bmp file format and documents in pdf format with 100 to 200KB size is to be uploaded.
- The candidate can edit the application form till given date except the information related to fee. **Do not disclose the password to any one as he/she may change your details and misuse it.** The organizers will not be responsible for such changes and consequences there on.
- **Deposition of application fees:** The fee is Rs.2800/- (excluding bank charges if any) for UR/ OBC/ SBC candidates and Rs.1400/- (excluding bank charges if any) for SC/ST/SAP (40% and above disability) candidates. **Amount is to be deposited online only. This amount is not refundable/ transferable/ adjustable in any case.**

2. ELIGIBILITY CRITERIA FOR ADMISSION

A candidate must ensure that he/she is eligible for admission to various courses before filling the online application form for Pre-PG. If a non-eligible candidate is admitted due to any reason, then the admission of such candidate will be cancelled as soon as the mistake is detected even at later stage. Various eligibility criteria for admission through Pre-PG are as under:

➤ EDUCATIONAL QUALIFICATION:

The candidates who have passed the B.Sc. Ag., B.Sc. Horticulture, B.Sc. Forestry honours are eligible for Pre-PG Ag., B.Sc. Home Science/CS honours for Pre-PG Home Science/CS and B.F.Sc. for Pre-PG Fisheries science from any recognized university.

A candidate must have secured at least 55% marks or equaling OGPA in the aforesaid examinations. A relaxation of 5% marks would be allowed to candidate belonging to SC/ST/OBC (Non creamy layer)/SBC (Non creamy layer) category. **The candidates taking the advantage of 5% relaxation will not be considered in UR category.** Degree/ Provisional degree certificate is essential at the time of filling the option form.

Candidates who have appeared at any of the aforesaid qualifying examinations and whose results have not been declared before the commencement of the Pre-PG shall provisionally be allowed to appear in the examination. The result of the examinations i.e. PDC is essential at the time of filling the option form.

➤ DOMICILE CRITERIA/RESIDENTIAL REQUIREMENT

The Examination is open to the candidates of Rajasthan domicile only or a candidate must fulfill the following conditions for admission:

The candidate must have studied for the last three years in the qualifying examination continuously as a regular student in recognized institution in Rajasthan i.e. passed 10th and 10+2 (in the qualifying subjects) from Rajasthan.

OR

Natural Father/Mother of the candidate has been continuously residing in Rajasthan for a period of last 10 years and the candidate has studied for at least 5 years during this period in the recognized educational institution in Rajasthan.

OR

The candidate must be a bonafide resident of Rajasthan. He/She may be presently studying in any of the states other than Rajasthan.

OR

The candidate is a son/daughter of a serving or retired employee of (a) Government of Rajasthan and Officer of All India Services the State Cadre of Rajasthan or (b) Undertaking/ Corporation/ Improvement Trust/ Municipal Bodies duly constituted by the Government of Rajasthan by an act of Law or (c) any of the Universities in Rajasthan or Board of Secondary Education, Rajasthan provided that the employee has worked in Rajasthan for three years preceding the last date of submission of the application.

OR

Candidate is a son/daughter of a permanent or retired employee of Indian Defense Service and the employee is either of Rajasthan origin irrespective of his/her place of posting or is posted in Rajasthan at the time of last date of the application for admission provided that in case the defense personnel is of Rajasthan origin, a Certificate has to be submitted by him/her from the employer to the effect that his/her State of origin is Rajasthan at the time of entry in to service.

OR

Candidate is a son/daughter of permanent (serving/retired) employee of Para-Military Forces of India and the employee is either of Rajasthan origin irrespective of his/her place of posting or is posted in Rajasthan at the time of last date of application for admission provided that in case of Para-Military Personnel from the Rajasthan origin, a certificate has to be submitted by him/her from the employer to the effect that his/her State of origin is Rajasthan at the time of entry into service.

OR

Candidate is a son/ daughter of a Judge of Rajasthan High Court subject to that he/she submit an undertaking/affidavit stating that such benefit is not claimed or availed by them in any other State.

Note:

- The relevant original documents / certificates which are the basis of eligibility of the candidate are to be furnished by the candidate at the time of registration in the college along with one self-attested set of above documents and photograph.
- The certificate of bonafide resident of Rajasthan will have to be duly signed by the District Magistrate of the concerned District or officer authorized by him, and must bear the authenticated photograph of the candidate.
- In case of serving personnel, where in-service conditions have resulted into eligibility, a certificate of the employer will have to be submitted by the candidate, with appropriate authentication, identification and verification.

3. RESERVATION OF SEATS

- The reservation of seats for various categories will be as per the rules of Government of Rajasthan and subsequently adopted by AU, Kota.
- The caste certificate must bear the photograph of candidate and must be issued by the competent authority.
- In case of OBC/SBC the certificate should not be more **than one-year-old** and must clearly indicate non creamy layer. Such certificate along with affidavit of non-creamy layer should not be earlier than 01-04-2016.
- **Reservation for wards of defense personals will be in following priority order. (In pursuance to deputy secretary Agriculture (Gr. III) letter No. प. 3(9)कृषि-3/2018 जयपुर दिनांक 03-07-2018 and Agriculture University, Kota Notification No. एफ ()/कृवि/ कोटा/ प्रबन्धमण्डल /2018/11335-49 दिनांक 12-12-2018 :**

Priority-I : EXS (a)- Killed in Action

Priority-II : EXS (b) – Disabled in action and boarded out from service/died while in service with death attributable to military service/disabled in service and boarded out with disability attributable to military service.

Priority-III: EXS (c) – Gallantry Award Winners

Priority-IV: EXS (d) – Ex-Servicemen

The domicile requirement for the wards of the Defense personnel from the State of Rajasthan but serving in other State is waived off. For wards of Defense personnel from other State but serving in the State of Rajasthan, the domicile condition is waived off to enable them to be selected in general quota. However, they would not be eligible for the above mentioned concessions.

50 % of the reserved seats will be earmarked for the girls. In case of non-utilization by girls, the utilized vacancies would revert back to the boys' category.

- Candidates are requested to upload the valid relation certificate issued by competent Army authority where priority should be clearly mentioned. Please note that Army Canteen Cards or ID cards etc. will not be considered as valid document.

4. INSTRUCTIONS FOR FILLING ONLINE APPLICATION FORM

The application will be accepted online only. The process of online submission of application form will be available at the website <http://www.jetcoakota.com> site will also be available on AU, Kota website www.aukota.org . The examination schedule is given separately.

Candidates must perform the following activities while submitting the online application form:

Step-1: Off line preparation for filling the Online Application Form:

Candidates are advised to go through these instructions and before starting filling of application form he or she must keep all relevant documents ready to avoid any reason for non accepting the form by the system.

- Take a recent photograph not older than six months showing the date of photograph of 5H x 4W cm size. Paste the photograph on plain paper and sign below the photograph 2H x 4W cm size. Scan it in jpg/jpeg/pjpeg/png/bmp/tif/gif format with 80 pixels per inch resolution. The image size of photo with signature should be in between 30 to 50 KB. Sample image is already given on web site.
- Fee concession certificate i.e. caste category and/or specially abled person certificate indicating 40% and above disability should be scan in “pdf” format having size 100 to 200KB.
- Scan mark sheets of X and XII examination and PDC (if passed already) of UG in “pdf” format having size 100 to 200KB
- Mobile number on which candidate wants to get SMS related to this examination from Coordinator office. **All the information will be sent through SMS on this mobile.** Use your own or close relative mobile number and avoid mobile number of Coaching Centre and Emitra. Not more than three applications will be accepted on a common mobile number.
- **In case non availability of mobile number or change in mobile number candidate will not get the information for which this office will not bear any responsibility.**

Step-2: Depositing the fees

- Candidate must read the instructions given on the web site carefully.
- Fees of Application form is Rs. 2800/- + bank charges if any for General/OBC/SBC candidates and Rs.1400/- + bank charges if any for candidates of SC/ST/SAP 40% and above disability. Fees will be acceptable online only after filling the essential information.

- This fee is not refundable/ transferable/ adjustable in any case.
- Deposit the fees from your own or close relative account/ credit/ debit card and avoid the account or credit/ debit card of E-mitra or any other agency to avoid difficulty in case of refund if any.
- Candidates are advised to keep the details of bank account viz., Name of the bank and branch, account holders' name, number, type of the account etc. for ready reference in near future.

Step-3: Filling of Online Application Form

- The entries of online application form must be filled as required.
- Candidate should ensure that the photo and signature belongs to the same person i.e. his/her only.
- The changes (if required) will be allowed in online application form up to a given date using registration number and password. **Keep the password very safe as anyone can change your details and misuse it due to this for any change in your application form this office will not be responsible. Do not share the password details.**

Step-4: Printing of application form

- Click the Print button on the web portal and get print of application form. Keep this print for your record.
- **Candidates need not to send hard copy of application to the Coordinator.**

5. ADMIT CARD

Admit card will be available on web site www.jetcoakota.com as per schedule till commencement of exam. **No admit card will be sent by post or personally to the candidates.** The Coordinator reserves the right to withdraw the permission granted by error to a candidate who is not eligible to appear in the examination even though the admission card has been issued and produced by the candidate before the centre superintendent.

6. EXAMINATION SCHEME

- In the very nature of competitive examination, no syllabus can be prescribed. However, it is an exercise to pick up the best. There would be a single question paper for each Pre-PG examination for all the candidates' wants admission in different subjects of that stream.
- The Question Paper would be covering the entire subject studied in undergraduate degree programme. Broad outline of subject content is given in the syllabus.

Unit	Pre-PG	No. of questions
	Agriculture/Horticulture/Forestry	100
1.	Agronomy	10
2.	Plant Breeding and Genetics	10
3.	Soil Science and Agricultural Chemistry	10
4.	Plant Pathology + Nematology	10
5.	Horticulture	10
6.	Forestry	10
7.	Entomology	09
8.	Biochemistry/ Biotechnology + Plant Physiology	09
9.	Extension Education	09
10.	Agricultural Economics + Agricultural Statistics	08
11.	Animal Husbandry	05
	Home Science/ Community Science	100
1.	Family Resource Management	20
2.	Human Development and Family Studies	20

3.	Foods and Nutrition	20
4.	Home Science Extension and Communication Management	20
5.	Textiles and Apparel Designing	20
	Fisheries Science	100
1.	Aquaculture	20
2.	Fisheries Resource Management	20
3.	Fish Health Management and Aquatic Environment Management	20
4.	Fish Processing Technology and Aquaculture Engineering	20
5.	Basic Sciences (Fisheries Extension, Economics, Statistics, Biochemistry and Communication Technology)	20

- The candidates desiring admission in M.Sc. Agriculture/ Horticulture/ Forestry have to attempt the paper of Pre-PG Ag., those in M.Sc. Home Science have to attempt Pre-PG Home Science/Community Science and those in M.F.Sc have to attempt Pre-PG Fisheries.
- The question paper will be only in English and consists of 100 multiple choice type questions. There would be four suggested option [(1), (2), (3), (4)] to each question.
- The candidates are required to choose the most appropriate option and blacken the corresponding circle with the black ball point pen in the OMR sheet (Details for filling answer sheet are given on back side of OMR sheet). The test booklet may be used by the candidates for rough work and the squares printed in it may be used for deciding the correct answer. Assessment will be made only on the basis of marking on the OMR sheet. At the end of examination candidates may carry question booklets with them.
- **Marking scheme:** Four marks will be awarded for every correct answer and one mark will be deducted for every wrong answer (Negative marking). If more than one option is chosen, it will be treated as wrong answer. No marks will be awarded or deducted for unmarked/ un-attempted questions.
- The merit list will be prepared on the basis of marks obtained only.
- After obtaining the objections, if any question found ambiguous or having ambiguous answer, correct answer more than one, no correct answer will be dropped and merit will be prepared on the basis of obtained marks of remaining questions.

7. WRITTEN EXAMINATION SCHEDULE:

Written examination will be conducted as per schedule from 11.00 AM to 1:00 PM.

The schedule of the test will be

Candidate should report to the examination centre : 10:00 AM

No candidate will be permitted after : 10:45AM

Commencement of the examination : 11:00 AM

Candidate will not be allowed to leave the examination hall before : 01:00 PM

NOTE: Information regarding college wise number of seats, filling of option form etc. for seeking admission will be displayed after declaration of result.

SYLLABUS:

Objective of such entrance test is to select the best therefore no syllabus can be prescribed however a broad outline is given as follows:

Pre-PG Agriculture/ Horticulture/ Forestry

1. Agronomy:

Agro-climatic zones of India and Rajasthan, adaptation and distribution of crops. Weather and climate. Basics of weather forecasting. Modern concepts of tillage. Management of crop residue, soil organic matter, bio-fertilizers, green manuring, oil cakes, fertilizers. Consumption of straight and complex fertilizers, foliar application. Plant nutrients: occurrence, cycling in soils and their availability. INM

concept and vermi-compositing. Cropping and farming systems. Sustainable agriculture: concept and details. Organic farming: principles, objectives, certification, labelling and accreditation process. Water resources of India and Rajasthan. Methods of irrigation. Irrigation efficiencies. Water management in crops. Quality of irrigation water. Agricultural drainage: methods. Dry land agriculture in India and Rajasthan. Concept, importance, objectives and benefits of watershed. Agronomy of important crops of *kharif*, *rabi* and *zaid* seasons of Rajasthan. Weed biology and ecology, crop-weed association. Problem of weeds in Rajasthan and their physical, cultural, biological and chemical control. Integrated weed management. Herbicide selectivity. Adjuvants.

2. Plant Breeding and Genetics:

Variation – its causes and importance. Pollination and fertilization. Cell structure and division. Mendel and his work. Gene interactions. Multiple alleles and blood groups. Linkage, crossing over and mapping of chromosomes. Gene mutations, chromosomal aberrations, polyploidy and their role in crop improvement. Cytoplasmic and chromosomal inheritance. Sterility and incompatibility and their application in plant breeding. Heterosis and its exploitation for crop improvement. Germplasm conservation and exploitation. Breeding methods of self, cross and vegetatively propagated crops. Breeding for biotic and abiotic stresses. Application of genetic engineering and biotechnology in crop improvement. Seed, its types and classes. Seed certification: principles and procedures. Minimum seed certification standards. Seed production of important field crops.

3. Soil Science and Agricultural Chemistry:

Soil as a medium for plant growth, soil composition, formation, profile, rocks and minerals. Soil survey, classification and Remotesensing. Physical properties of soil-texture, structure, soil moisture, air and temperature in relation to plant growth. Chemical properties of soil-clay minerals, organic and inorganic colloids, cation exchange phenomenon. Soil reaction and buffering capacity. Soil erosion, conservation. Problematic soils. Essential nutrients, their functions, deficiency symptoms and their availability. Soil fertility evaluation, nutrient recommendations. Manures and fertilizers.

4. Plant Pathology:

Importance of microbes and plant pathology in agriculture. Micro-organisms (Fungi & bacteria) and their classification, nutrition, growth and reproduction. Host-pathogen relationship. Morphology, reproduction, nutrition and nomenclature of fungi. Classification of plant pathogenic fungi. Symptomology, disease cycle. Important disease and their management- cereals, pulses, oil seeds, fruits, vegetables, spices, medicinal and aromatic, forest plant and cash crops. Integrated disease management and principles of plant disease control and novel approaches for disease management.

5. Nematology:

Introduction and brief history of plant parasitic nematodes, their morphological structure, biology, ecology and various physiological process. Symptomatology and nematode diseases with special reference to root-knot, reniform, citrus, ear cockle, tundu and molya and their management. Interaction of plant parasitic nematodes with other micro-organisms like fungi, bacteria and viruses, etc.

6. Horticulture:

Floriculture- History of ornamental gardening, garden styles, garden features and important commercial cut flowers and loose flowers cultivation. Uses of ornamental annuals, trees, shrubs and climbers. Vegetables- importance in human diet, type of farming and classification. Raising of seedling in nursery and pro-tray. Cultivation of important vegetables. Pomology- Selection of site, preparation

and layout of orchard, planting system. Principles of fruit production, propagation, cultivation of important fruits of Rajasthan. Methods of preparation of juices, squashes, jams, jellies and marmalades, preserves, squashes and pickles, canning and dehydration of fruits and vegetables. Seed spices – production technology. Important medicinal and aromatic plants of Rajasthan.

7. Forestry

Status of forests in India and Rajasthan. Forest: importance, types, classification, ecosystem, biotic and abiotic components, ecological succession and climax. nursery and planting technique, social forestry, farm forestry, urban forestry, community forestry, forest management, silvicultural practices, forest mensuration, natural regeneration, man-made plantations, shifting cultivation, taungya, dendrology, hardwoods, softwoods, pulpwoods, fuelwoods, multipurpose, tree species, wasteland management. Agroforestry – importance and land use system, forest soils, classification and conservation, watershed management, forest genetics and biotechnology and tree improvement, tree seed technology, rangelands, wildlife- importance, abuse, depletion, management, major and minor forest products including medicinal and aromatic plants, forest inventory, aerial photo interpretation and remote sensing, forest depletion and degradation – importance and impact on environment, global warming, role of forests and trees in climate mitigation, tree diseases, wood decay and discolorations, tree pests, integrated pest and disease management, biological and chemical wood preservation, forest conservation, Indian and Rajasthan State forest policies and acts, forest economics, joint forest management and tribology.

8. Entomology:

Animal kingdom- Classification and nomenclature. Economic importance of Arthropods, insects and mites in particular. Management of insect-pest and mites in agriculture. Ecosystem and wild life preservation. Insect dominance. Anatomy and morphology of grass hopper. Insect reproduction and development; identification. Lac culture, sericulture and apiculture. Physical, mechanical, cultural, chemical, biological, legal and other modern approaches of insect pest management.

9. Biochemistry/ Biotechnology:

Chemistry of carbohydrates, lipids, proteins and phyto-hormones. Chemistry of Nucleic acids and their functions. Outlines of metabolism of carbohydrate, lipid and protein. General characteristics of enzymes, coenzymes and secondary metabolites terpenoids, alkaloids and phenolics. Brief outlines of plant tissue culture and plant biotechnology. Molecular markers and their application in Agriculture.

10. Plant Physiology:

Cell, physiological functions of cell organelles, plant water relations, photosynthesis and photorespiration. Respiration. Inorganic plant nutrition, physiology of flowering, Photoperiodism. Physiology of growth, PGRs and their role. Biosynthesis and physiological response of PGRs. Seed development, germination and dormancy. Crop production in relation to stress.

11. Extension Education:

Extension Education- Definition, objectives and principles. Rural sociology: Meaning, definition, scope, social control and social change. Rural institutions- caste and family, rural leadership. Teaching-learning process. A.V. aids, teaching methods and their use in different situations. Programme planning and evaluation in extension education. Communication process and its elements. Diffusion and adoption of agriculture innovations. Pre-independence extension programmes in India: Gurgaon, Marthandam, Shriniketan and Sewagram projects. Developmental programmes and institutions- IRDP,

CD, NES, Panchayati Raj System, T & V system, NATP, PMRY, Swarn Jayanti Gram Swarajgar Yojna, KVK, ATIC, IVLP and ATMA. Entrepreneurship development: concept and meaning. Government schemes and incentives for promotion of entrepreneurship. Contract farming and joint ventures, public private partnership.

12. Agricultural Economics:

Meaning of utility, factors of production and their characteristics. Classical production function and law of diminishing returns. Factors affecting demand and supply. Price determination. Concept of elasticity and its measurement. Agricultural finance. Credit and credit institution. Agricultural cooperation. Nature and problems of agricultural marketing and prices. Regulated market. Marketing channels and price spread. Cooperative marketing. Nationalization of commercial banks. Economic principles of farm management, financial tools of farm management and farm planning and budgeting. Risk and uncertainty in agriculture. Importance of agri-business in Indian Economy. Discounted and undiscounted methods of project analysis. Marketing management.

13. Agricultural Statistics:

Meaning and scope of statistics. Data summarization. Measures of central tendency and dispersion. Elementary idea of correlation and regression. Tests of significance. Field experimentation. Analysis of variance and its application in basic design of experiments

14. Animal Husbandry:

Importance of Livestock and poultry in national economy. Cattle management and housing of cattle, buffalo, sheep, goat, poultry and camel. Prevention and control of common livestock diseases. Classification of feeding stuff and computation of balanced ration. Important breeds of farm animals and poultry. Methods and systems of breeding. Principles and methods of selection. Purchase of dairy animals. Infertility and sterility, their causes and prevention. Hatching, brooding and feeding management in poultry. Hay and silage making.

Pre-PG Home Science/ Community Science

1. Family Resource Management:

System approach to management. Management concepts: value, goals, standards. Management process. Resources-classification and characteristics. Communication-process, classification, barriers, Decision making process. Time management and work simplification. Money management. Housing and its importance, selection of site, orientation and zoning, factors considered while planning a house, building materials, house wiring-Electrical fittings and fixtures. Housing problems in India. Housing finance. Elements of art and principles of design, colour, home lighting, flower arrangement. Human wants and demands. Family budget, savings and investment. Consumer problems, consumers' rights and responsibilities, standardization, grading, labeling and packaging, unfair trade practices, consumer protection and welfare, Right to information. Marketing mix and marketing environment, marketing research. Product planning. Sales management. Entrepreneurship - definition, classification, importance, Government support. Selection, use and care of household equipment.

2. Human Development and Family Studies:

Meaning, purpose, scope and principles. Stages of growth and development. Developmental pattern and task of children till adolescence. Physical and motor development, cognitive, mental development, emotional, social and personality development. Moral development and guidance. Family: meaning and definition, functions of traditional and modern family, stages of family, lifecycle, expectations and specific roles of family members of each stage. Importance of family and child welfare. Classification and various areas of family and child welfare services in India and role of

National and International agencies. Theories of child development-Cognitive theory of Jean Piaget, Erikson's theory of psychological development. Early childhood care and development. Children with developmental challenges.

3. Food & Nutrition:

Functions, Sources, deficiency and excess intake of energy, carbohydrates, proteins, fat, fat soluble and water soluble vitamins and minerals (Classification and chemistry of amino acids and carbohydrates). Interrelationship of nutrients. Cooking methods- merits and demerits. Methods, principles and advantages of food preservation. Meal planning: importance, factors to be considered, planning meals for family, modification of diet for various age, sex and income groups and physical and physiological conditions of body. Modification of normal diet to therapeutic diet. Diet during disease like fever, liver disease, cardiovascular diseases and metabolic disorders like overweight, underweight and diabetes. Assessment of nutritional status, nutritional problems arising from food habits. Role of National and International agencies for overcoming nutritional problems in India.

4. Home Science Extension and Communication Management:

Meaning, aims, philosophy and principles of Home Science Extension Education. Problems of rural society. Concept and need of rural development. Audio-Visual Aids- Role and classification. Teaching methods- classification, advantages and limitations of each method, principles of extension teaching. Difference in teaching in formal and informal situation. Achievements and failures of community development programme. Panchayati Raj, Voluntary organization and their role in rural development, rural leadership. Concept, importance, elements and problems of communication, Meaning of adoption and diffusion. Meaning and characteristics of innovation. Stages and factors affecting adoption. Nature, role, meaning, principles and process of programme planning. Characteristics of good programme, problems of extension work and ways to solve them. Concept, importance and methods of evaluation, use of evaluation result in programme planning. Rural development programmes- ICDS, IRDP, TRYSEM, *Swarn Jayanti Gram Swarozgar Yojna* and MGNREGA, India's five year plans with special reference to rural development.

5. Textile and Apparel Designing:

Classification, properties and basic concepts of production of textile fibre, yarn structure, complex and textured yarns, various fabric construction processes. Loom and its parts. Basic and fancy weaves. Printing and their methods. Dyes and their application, general and special finishes. Principles and process of laundering, laundry equipment's, water, soaps and detergents, bleaches, blues, stiffening agents and their uses, laundering and stain removal of different fabrics. Dry cleaning and storage of cloths. Social- psychological aspects and needs of clothing in the family. Changing needs of the family. Study of ready-made and tailor made garments in terms of finish, cost and quality. Clothing budget for the family of different income levels, size habits and needs. Principles in selecting fabrics, colours and textures for different age groups. Traditional textiles of India and embroidery. Flat pattern methods, shifting of darts by slash and pivot method. Principles and elements of design applied to apparel designing. Introduction of CAD, CAM. Application of CAD in Textile and Apparel Designing. Fashion Terminology, Fashion cycle, theories of fashion adoption, factors affecting fashion.

Pre-PG M.F.Sc:

1. Aquaculture:

Definition and scope of Aquaculture, Systems of aquaculture, Extensive, semi-intensive, intensive and super intensive aquaculture, organic aquaculture. Pre-stocking and post stocking pond management. Candidate species for aquaculture: IMC, Exotic fish species, air breathing fishes, culturable shell fish and cat fishes of fresh water and brackish water. An over view of sea farming and shore-based aquaculture in different parts of the world. Shore-based aquaculture and sea farming in India. Important cultivable fish and shellfish (seabass, mullet, milkfish, grouper, snappers, pearl spot,

tiger shrimp, white shrimp, mud crab, mussel, clam, oysters (edible and pearl oyster), seaweeds, etc. World trade of ornamental fish and export potential. Fabrication, setting up and maintenance of aquarium, water quality management. Water filtration system– biological, mechanical and chemical filters. Aquarium plants and their propagation.

Fresh water and marine fish seed resources. Natural breeding of finfishes. Riverine spawn collection, storage of spawn, Spawn quality and quantity indices. Methods of breeding; Hypophysation of fishes. Fish pituitary gland. Treatment of eggs. Spawn rearing; Use of anesthetics in fish breeding and transport. Natural seed resources of shell fishes. Brood stock management and Maturation stages of *Macro brachium rosenbergii* and *Penaeus* sp.

Principles of genetics and breeding, Gene, Mendel's law of inheritance, Gene interactions – Hybridization. Mutation, Chromosomal structure and aberrations. Linkage and crossing over. Cryopreservation, Selective breeding programs in aquaculture. Seed certification and quarantine procedures. DNA as genetic material, Chemistry of nucleic acids, Genetic code. Gene cloning and Transgenesis, Waste water treatment, Biofilters in aquaculture, Biofertilizers, Gene bank.

Nutritional requirements of cultivable fish and shellfish. Feed formulation and manufacturing. Forms of feeds: wet feeds, moist feeds, dry feeds, mashes, pelleted feeds, floating and sinking pellets. Feed additives: binders, antioxidants, enzymes, pigments, growth promoters, feed stimulants. Candidate species of phytoplankton and zoo-plankton as live food organisms of freshwater and marine species.

2. Fisheries Resource Management:

Major taxa of commercially important inland and marine finfishes and shellfishes. Morphological characters of commercially important fin fishes and shell fishes of freshwater and marine waters of India. Anatomy of important groups of shellfish and finfish, Digestive system and digestive glands. Circulatory, Respiratory, Nervous, Urino-genital and Endocrine systems.

Study of food and feeding habits of commercially important finfishes and shellfish. Age and growth determination. Reproductive biology– maturity stages, gonad osomatic index, ponderal index, fecundity, sex ratio and spawning. Eggs and larval stages and developmental biology of finfishes and shell fishes.

Circulation. Excretion, Osmoregulation. Reproductive physiology. Sense organs. Effect of environmental factors on physiology of finfish and shellfishes. Stress related physiology.

Inland capture fishery resources of India. Major riverine and estuarine systems of India. Major brackish-water. Differences between man-made and natural lakes and flood-plain wetlands. Fishery zones and fishery resources of world. Major exploited marine fisheries of India, their developmental history and present status. Important pelagic - demersal fish, shellfish and seaweed resources of India. Potential marine fishery resources of the India's EEZ. GIS and Remote sensing in marine capture fishery. Concept of population, Unit and mixed stock. Principles of stock assessment. Population age structure. Estimation of total fishing and natural mortality. The concept of yield, yield in number and yield in weight, Sustainable Yield and Maximum Economic Yield. Fisheries regulations.

3. Fish Health Management and Aquatic Environment Management:

Significance of fish diseases in relation to aquaculture. Host, pathogen and environment interaction. Pathogenicity and mechanism of bacterial, viral and fungal infections of finfish and shellfish. Infectious diseases. Important diseases of fish and shellfish; Principles of disease diagnosis. Case history and

clinical sign in diagnosis. Drugs, chemicals, antibiotics and probiotics used in aquaculture and their mode of action. Quarantine and fish health.

Inland water types, their identities and distribution; ponds and lakes; streams, dynamics of lentic and lotic environments. Lakes - their origin and diversity. Lake environment: morphometry, physical and chemical conditions and biological relations. Plankton, nekton, benthos and concept of productivity. Lotic environments.

The earth and the ocean basin, Relief of sea floor; Ocean Waves, and Tides: types of tides tidal bores and tide prediction. Ocean Currents, General distribution of temperature and salinity. Divisions of marine environment: pelagic, benthic, euphotic, aphotic divisions and their subdivisions. General account of major groups of phytoplankton, sea weeds, major zooplankton groups. Benthos in rocky, sandy, and muddy shores, Mud banks and Mangroves. Goals and purposes of CZM. General coastal zone programs. Coastal Regulation Zone (CRZ) Act. Integrated Coastal Zone Management (ICZM).

Origin and nature of soils. Physical and chemical properties of soil, Submersed soils, wet lands, Saline soils, Alkali soils, acid sulphate soils, iron pyrites, soil reclamation. Collection and preparation of soil samples. Nature of Atmosphere: weather and climate; composition of Atmosphere. Humidity and water vapour. Condensation and precipitation: process and conditions of condensation, measurement of precipitation. Isobars and pressure gradients, wind observation and measurement

Ecology and its subdivisions, Ecosystem: Principles, concepts, Structure and function of an ecosystem, Producers, consumers. Energy flow in the ecosystem. Ecological succession; Food chains, food webs and ecological pyramids; Water conservation, rainwater harvesting. Homeostasis. Ecological indicators. Community Ecology: species diversity in communities. Symbiosis commensalisms, parasitism. The freshwater environment and types; pond ecosystem, wetlands. Environment protection and conservation.

Classification of water pollution- Sewage and domestic wastes- sewage treatments. Agricultural wastes- Eutrophication; Pesticide types and categories; Bioaccumulation and Phytoremediation. Oil pollution; Microbial pollution: Radionuclide pollution, Thermal pollution Environmental Impact Assessment for fisheries and aquaculture projects.

4. Fish Processing Technology and Aquaculture Engineering

Fishing gears of world and India. Gear materials- Classification – natural and synthetic – yarns, twines, ropes. Accessories for fishing gear. Floats – buoys: its materials. Sinkers- types. Fishing accessories – thimbles, shackles, C-lonks, rings, G-links, Kelly's eye. Maintenance and storage of gears and gear materials. FAO Classification of fishing gear Classification of trawling. Fish pumps. Fish finder, GPS navigator, sonar net sonde. Traditional fishing crafts of India. Classification of fishing crafts based on fabrication, dimension, nature of fishing, depth of operation etc.; Boat building materials seasoning & preservation.

Handling of fresh fish; principles of low temperature preservations. Chilling of fish –methods and equipment for chilling; Can making materials and cans, Steps in canning- Precooking, packing, exhausting, seaming, thermal processing, cooling and storage. Processing of fish by traditional methods – salting, sun drying, smoking, marinading and fermentation. Fish meal and oil. Chitin chitosan. Utilization of seaweeds agar agar battered and braided products-fish.

Freshwater and costal aqua-farms. Preliminary survey, site selection, topography. Land survey- chain surveying, compass surveying, leveling, plane table surveying and contour surveying. Location

design and construction of hatcheries, race ways and farm complex. Tide- fed/ pump fed farms, open canals and roads. Design and construction of ponds and dykes; seepage and evaporation and their control.

5. Basic Sciences (Fisheries Extension, Economics, Statistics, Biochemistry and Communication Technology):

Introduction to fisheries economics, basic economic terminologies, Farm production economics

– Costs and returns –factors of production, marginal cost and return, law of diminishing marginal return, returns to scale, contribution of fisheries to GNP and employment. Fisheries Trade and Environment.

Major biomolecules in foods and their important functions. Glycolysis and TCA cycle. secondary, Classification, structure, functions and properties of carbohydrates, proteins and lipids. Enzymes- nomenclature; classification.

Composition of food & nutritional value. Moisture in foods. Fish lipids in human nutrition, oxidation of fatty acids; naturally occurring polysaccharides in foods, fibre in food and its role. Glycolysis, gluconeogenesis, essential and non-essential amino acids.

Prokaryotes – bacteria, actinomycetes, spirochaetes, cyanobacteria, mycoplasma & viruses, photoheterotrophs & chemoheterotrophs. Role of microorganisms in the cycling of elements in water, breakdown and production of organic matter; Carbon, nitrogen, sulfur, phosphorus iron and manganese cycles. Role of bacteria and fungi in sedimentations, microorganisms and water pollution, hydrothermal bacteria, halophilic bacteria.

IT and its importance, IT tools, IT-enabled services and their impact on society; computer fundamentals; hardware and software; input and output devices; word and character representation Operating systems (OS) – definition, basic concepts, introduction to WINDOWS and LINUX Operating Systems; Local area network (LAN), Wide area network (WAN), Internet and World Wide Web, HTML and IP; Introduction to MS Office – Word, Excel, Power Point. Audio visual aids - definition, advantages.

Fisheries extension - concepts, objectives and principles. History and role of fisheries extension in fisheries development. Transfer of technology process; important TOT programs in fisheries; Basic concepts in rural sociology and psychology and their relevance in fisheries extension; social change, social control. Central and State responsibilities for fisheries development, organizational set up of fisheries administration at the Centre and state levels. Functions and powers of functionaries of department of fisheries, corporations and cooperatives. development over Five Year Plans. I. Fisheries legislation.

Hazard, risk, vulnerability, disaster, capacity building. Types of natural and manmade hazards in fisheries and aquaculture; algal blooms, habitat destruction, over fishing, introduction of exotic species, loss of bio-diversity etc. Causes, characteristics and impact of various disasters.

Co-operative movement in fisheries in India, source and type of credit/finance in fisheries role of NABARD in fisheries development. Insurance in fish and shrimp farming. Market structure, functions and types; marketing channels and supply chain.

Entrepreneurship Development: Fisheries entrepreneurial and managerial characteristics. Generation incubation and commercialization of ideas and innovations. Government schemes and incentives for promotion of entrepreneurship.

Definition of statistics, Basic concepts of population and sample, classification of data, frequency and cumulative frequency table. Arithmetic mean median and mode relative important measures of dispersion coefficient of variation.
